PRESENTS FOR THE STUDENTS OF BOŠKO BUHA ELEMENTARY SCHOOL

LUKOIL SERBIA has provided New Year's gifts for students at the "Boško Buha" elementary school in Belgrade, which educates and raises children with intellectual disabilities. Toys were selected that encourage and develop children's creativity and motor skills, since the school, in addition to the implementation of mandatory subjects, also includes centers of interest, speech therapy and psychomotor exercises, health education and a program for the prevention of antisocial behavior. The company has been a traditional sponsor of this action for a number of years. For the second time, members of the "Mini Club of Serbia" joined the humanitarian action of LUKOIL SERBIA. Dressed as Santa Claus, they delivered gifts from LUKOIL Central Office in Belgrade and made this day even more interesting for 105 students.
